MARKET POSITION

UAE #1 Car Broker

01 | EXECUTIVE SUMMARY

UAE Automotive Market & Competitive Landscape

Wheels2Deals.com operates at the intersection of a booming UAE automotive market and an underserved need: a **trusted B2B connector** that channels qualified buyers to dealer and service partners. Unlike direct marketplaces (Dubizzle, CarSwitch), Wheels2Deals earns by generating business for its partners — not by charging consumers. This document defines the brand colours, language, and strategy to make Wheels2Deals the **dominant car-broker brand** in the UAE by 2027.

THE UAE MARKET OPPORTUNITY

COMPETITIVE LANDSCAPE

THE WHITE SPACE — WHY W2D WINS

- No UAE platform operates purely as a B2B lead-generation broker for automotive partners.
- Dealers need qualified leads, not more listing fees. W2D fills this gap.
- Service partners (insurance, RTA, wash, photography) have zero dedicated broker today.
- High-net-worth expat buyers trust concierge models over DIY classifieds.
- Fleet & corporate buyers are completely unserved by consumer marketplaces.
